

TruBridge™ Certification Program Overview

Thank you for your interest in participating in the TruBridge™ Certification Program (the “Program”) administered by TruBridge Dental L.L.C. This Overview provides a brief summary of the Program, its benefits, and key considerations for you to consider as a potential licensee.

Program Overview

- Our Program will equip dental practitioners with the knowledge, technology, and resources they need to provide TruBridge™, the world’s first teeth-only dental bridge, to all members of the community, one smile at a time.
- TruBridge™ is ultra-light, zirconia-strong, and designed to preserve the integrity of the mouth’s original sockets.
- TruBridge™ does not require invasive drilling or removal of the jawbone or gums, as heavy acrylic devices and dentures have imposed on patients for decades.

Our Mission

- **Empower** patients to reclaim their true smile and restore their confidence through innovative and non-invasive dental restoration services.
- **Provide** patients with a comfortable and compassionate experience, minimizing any discomfort or anxiety often associated with traditional dental procedures.
- **Create** dental bridges that seamlessly blend with patients' natural teeth, creating a harmonious and natural appearance that inspires joy and confidence in every patient served.
- **Make** beautiful and healthy smiles accessible and affordable to all members of the community, regardless of socioeconomic status, background, or circumstances.
- **Deliver** transformative results that leave patients feeling like their TruBridge™ is the storybook ending to their fairy tale dream come true.

Certification Benefits

- **Gain** access to our proprietary patented technology and know-how for performing transformative, state-of-the-art dental restoration services.
- **Enhance** your professional credibility, promote your certified status, and differentiate your services in the industry by displaying your TruBridge™ credentials.
- **Stay** ahead of the curve on the latest advancements in dental restoration techniques and technology through our training and educational resources.

Certification Requirements

- Acceptance into the Certification Program
- **Completion** of the required training course and receiving a passing score on the final exam.
- **Compliance** with continuing certification and recertification requirements.
- **Meeting and maintaining** our quality control standards and best practices.
- **Participating** in at least initial periodic audits or assessments to verify compliance with certification requirements and ensure high quality service and patient care.

Licensing & Usage

- **License Grant:** You will be granted a non-exclusive, non-transferable, non-sublicensable license to perform dental restoration services using our patented technology and know-how.
- **Restrictions:** Subcontracting, sublicensing, and using our patented technology and know-how for purposes other than those expressly authorized is prohibited.
- **Marketing:** You will be given pre-approved promotional materials to promote your credentials and expand the Program.
- **Compliance:** You must maintain complete and accurate patient and payment records for audit purposes and be willing to allow us to inspect your facilities from time to time.
- **Confidentiality:** You must maintain strict confidentiality and take appropriate measures to safeguard the proprietary and confidential information related to our patented technology, trade secrets, technical information, and know-how from unauthorized use or disclosure to third parties.

Term & Fees

- **Term:** the initial term of the Program is 1 year and can be renewed annually, subject to compliance with additional certification and recertification requirements.
- **Program Fee:** a one-time fee is required for the training course, final exam, and other initial certification requirements.
- **Annual Renewal Fee:** an annual fee is due on the anniversary of your certification completion to maintain your certified status.

We are thrilled that you are interested in applying for the TruBridge™ Certification Program and are excited about the potential to work together to deliver exceptional, cutting-edge dental restoration services. This Overview provides a general summary and does not constitute a legally binding agreement. Detailed terms will be outlined in a Certification Program Agreement, which will be provided to you upon request.

If you have any questions or would like further clarification, please do not hesitate to contact us.
